ABOUT US!

Dance Happy is so proud to introduce the first costume catalogue designed just for YOU!

Dance Happy strives to be the first dancewear brand created specifically for the recreational dance world. A huge and important part of the dance world has been overlooked at every turn, until now!

Here at Dance Happy, we believe that every body is a dancer's body. All of our costume and Dancewear designs are created with coverage, simplicity, comfort and inclusivity in mind.

Unisex designs are generously cut to fit every body and every design is available from a size Toddler 2 to Adult 3XL, for the ultimate cohesiveness with even the most diverse groups.

Design an entire costume with us or combine our costume pieces with basic dancewear many dancers already have!

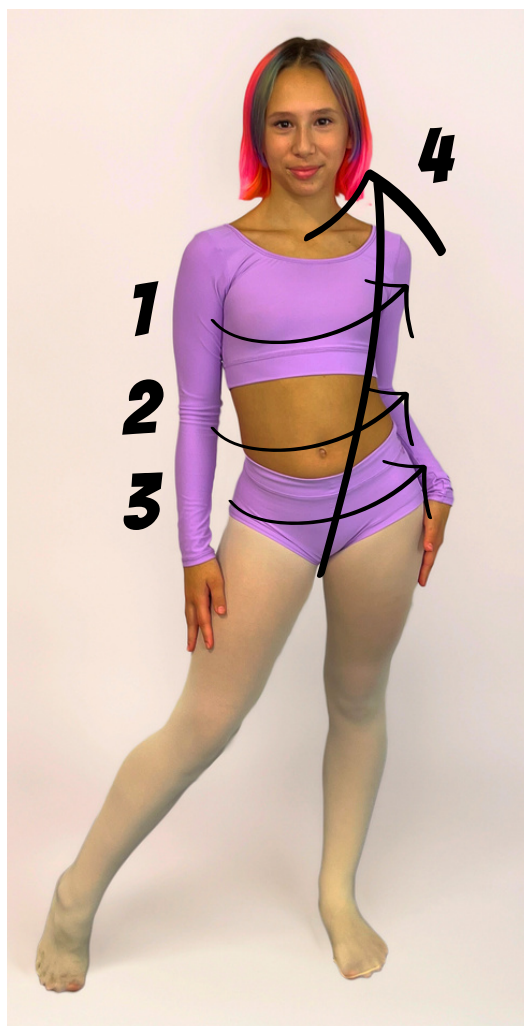

Join us as we bridge the gap in the Dancewear world with amazing looking costume pieces for any budget.

WHAT'S IN A SIZE?

We believe that every body is a dancer's body and we try to reflect that in our sizing. Generous cuts are unisex in every style and every single piece is available from a size Toddler 2 to Adult 3XL.

Below you will find a helpful guide on how to take measurements for your dancers. Choose a size based on the largest measurement that matches and don't be afraid to size up. Our designs have generous cuts that will stay where intended even with a little room. And we all know how fast a dancer can grow without warning!

Have your dancer stand with their feet hip width apart, their arms to their sides, and using their best posture. Using a soft tape, measure taught but not tight.

1 Measure the chest around the fullest part of the bust, wearing their preferred undergarments.

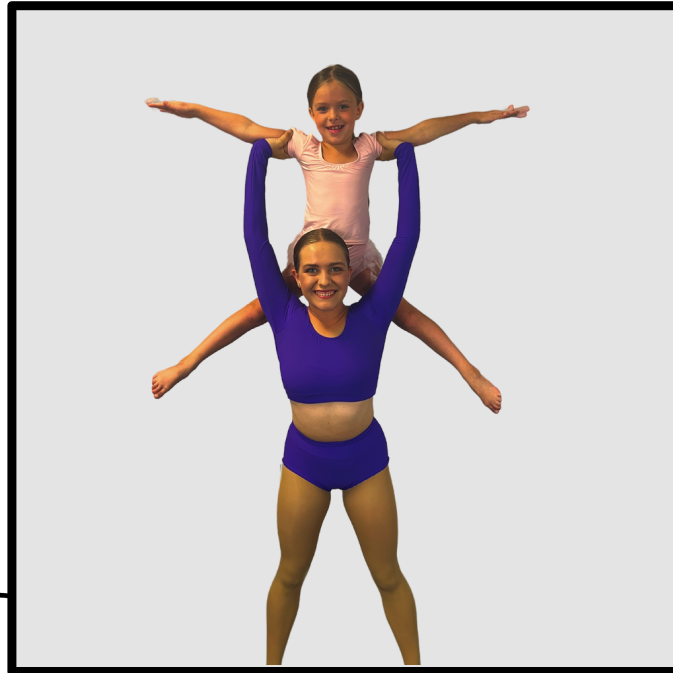

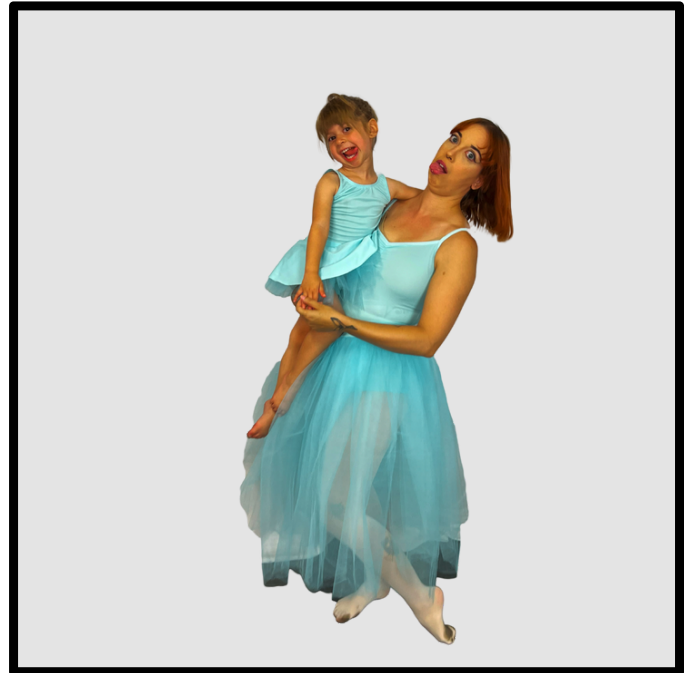

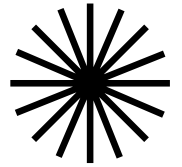

2 Measure the waist at the dancer's natural waist; the narrowest part of the torso. This is usually an inch above the navel.

3 Measure the hips at the fullest part. This is usually level with the tailbone.

4 Measure the girth from one shoulder, across the torso, through the crotch and back up to meet the shoulder. Be sure your tape is snug!

Find our inch-by-inch size chart on our website with all product pictures for easy reference!

Sneak Peek!

Lets Go!

Use this guide along with our online product ordering catalogue to create something great!
